

LSH — Supported Platforms & Devices

One server · one REST API · one WebSocket · Apple HomeKit & Loxone bridges built in

34

integrations,
all in one process

⚡ Energy

3 platforms

PLATFORM	CONNECTION	DEVICES & DATA
Victron Energy	Local MQTT	Cerbo GX / Venus OS — battery SOC, PV, grid, AC/DC loads, relays, system state
Victron VRM	Cloud	Automatic fallback when local MQTT is unreachable; same data + relay control
SolarEdge	Cloud	Inverters — production, grid/battery/load power, daily & lifetime energy

🔒 Security & Cameras

4 platforms

PLATFORM	CONNECTION	DEVICES & DATA
Satel INTEGRA	Local TCP	Alarm panel via ETHM — 64+ zones (motion/contact → HomeKit), tampers, fire & burglary alarms, partition arm/disarm, 32 outputs
UniFi Protect	Local	NVR cameras — live streams, snapshots, motion/doorbell events
Reolink	Local	PoE cameras & NVRs — RTSP/snapshot streams, per-channel config, live-apply
Generic cameras	Local	Any RTSP / MJPEG / WebRTC source + on-demand FFmpeg RTSP proxy

🏠 Hubs & Controllers

11 platforms

PLATFORM	CONNECTION	DEVICES & DATA
Loxone Miniserver	Local WS	Rooms, switches, dimmers, blinds, thermostats, sensors — auto-discovered from structure file; outbound push to Virtual Inputs; XML template generator for Config 17.1
Fibaro HC 2 / 3	Local REST	Z-Wave switches, dimmers (FGD212 → HomeKit lights), shutters, temp/humidity/lux, power meters, door/window, motion, smoke, flood
Somfy TaHoma	Local + Cloud	Roller shutters, screens, venetian blinds, awnings, gates, garage doors — open/close/stop/position (Overkiz SSO cloud mode)
Homey Pro	Local + Cloud	All Homey devices — lights, switches, sensors, thermostats, locks with full control
SmartThings	Cloud	Samsung ecosystem — switches, plugs, power meters, sensors, appliances
Z-Way / RaZberry	Local REST	Z-Wave.Me controllers — switches, dimmers, thermostats, locks, sensors, battery; grouped per Z-Wave node
Wiren Board	Local MQTT	WB controllers via MQTT Conventions — relays, dimmers, inputs, climate sensors, counters
KNX	KNXnet/IP	Group-address mapping — switches, dimmers, values (DPT 1/5/9...)
IKEA Dirigera	Local	Lights, plugs, blinds, motion & air-quality sensors
IKEA Tradfri	Local CoAP	Legacy gateway — bulbs, plugs, blinds, remotes
Suppla	Cloud / self-host	Switches, dimmers, thermometers, humidity, shutters, gates

Devices & DIY

8 platforms

PLATFORM	CONNECTION	DEVICES & DATA
Shelly	Local	Gen1/Gen2 relays, plugs, dimmers, energy meters, sensors
ESPHome	Local	ESP32 / ESP8266 nodes via web server API — any sensor or switch
BoneIO	MQTT	DIN-rail I/O — relays, inputs, sensors
Waveshare Modbus	Modbus TCP	Relay boards — up to 32 channels per device
Arduino / generic MQTT	MQTT	Any JSON topic mapped to sensor readings or controllable outputs
SmartBob	MQTT	Custom entities — sensors, switches, automation endpoints
BroadLink	Local	RM4 IR/RF blasters — learn & replay remote codes
MC6 thermostats	MQTT	Room temperature, setpoint, mode

Climate, Pool & Wellness

4

AUX Air

Cloud

AC Freedom — on/off, target temp 16–30 °C, mode, fan speed

Bayrol Pool Manager

Cloud MQTT

pH, ORP/redox, water temperature, salt

SmartTub

Cloud

Jacuzzi / Sundance spas — water & set temp, heat mode, jet pumps, lights

LG ThinQ

Cloud

Washers, dryers, fridges, AC — state & cycle monitoring

Vacuums & A/V

4

Dreame

Local miiio

Robot vacuums & air purifiers — start/stop, status, battery

Roborock

Local

Robot vacuums — cleaning control & status

Sonos

UPnP

Speakers — play/pause, prev/next, volume, mute (SSDP auto-discovery)

Denon / Marantz

Telnet

AV receivers — power, volume, mute, input selection

Outbound Bridges & Automation

Apple HomeKit

Every device bridged as native accessories — temperature, motion, contact, switches, dimmable lights, cameras

Loxone

Real-time push to Virtual Inputs + one-click XML import templates (Config 17.1) for commands & feedback

SIP Softphone

UniFi Talk / any PBX — incoming call popup with camera feed and one-tap door unlock

REST API + WebSocket

One endpoint for all platforms —
`/api/devices`,
`/api/device/<key>/set`, Socket.IO live stream

Automation engine

Edge-triggered rules, one-tap scenes, threshold alerts with real-time toasts

History & charts

Every numeric value recorded — sparkline charts, min/avg/max,
`/api/history`
